

WHAT IS CLAIMED IS:

1. A product for wrapping and packaging a cigar paper, the product comprising:

a cigar tobacco paper;

5 a cylindrical object used to keep the tobacco paper in a cylindrical shape; and

a enveloping means wherein said enveloping means encloses the tobacco paper;

2. The product of Claim 1 further comprising:

10 a container means for shipping the cigar tobacco paper wherein said container means may hold a plurality of cigar tobacco paper.

3. The product of Claim 1 wherein said cigar tobacco paper is a tobacco leaf.

15 4. The product of Claim 1 wherein the cigar tobacco paper is homogenized tobacco paper.

5. The product of Claim 1 wherein the enveloping means is aluminum foil.

6. The product of Claim 1 wherein the enveloping means is plastic.

7. The product of Claim 1 wherein said cylindrical object is removed from packaging before shipment to a consumer.

5 8. The product of Claim 1 further comprising:

a container means for shipping the cigar tobacco paper to a consumer wherein said container means is comprised of plastic.

9. A method for packaging a cigar tobacco paper to be used by a consumer, the method comprising the steps of:

10 providing a cigar tobacco paper to be used by the consumer to fill with tobacco filler;

inserting a cylindrical object on top of the cigar tobacco paper to hold the shape of the tobacco paper; and

providing an enveloping means to enclose the tobacco paper.

15 10. The method as described in Claim 9 further comprising the step of:

placing the cylindrical object on top of the tobacco paper for wrapping.

11. The method as described in Claim 9 further comprising the step of:

rolling the tobacco paper about the cylindrical object to hold a cylindrical shape.

5           12. The method as described in Claim 9 further comprising the step of:

inserting the rolled cigar tobacco paper into the enveloping means.

10           13. The method as described in Claim 9 wherein the enveloping means contains the tobacco paper and the cylindrical object and further wherein the tobacco paper forms a plurality of layers with the enveloping means.

14. The method as described in Claim 9 further comprising the step of:

15           removing the cylindrical object from the rolled tobacco paper.

15. The method as described in Claim 9 further comprising

the step of:

placing the rolled tobacco paper and enveloping means in a container means wherein said container means is plastic.

16. The method as described in Claim 9 further comprising

5 the step of:

placing the rolled tobacco paper and enveloping means in a container means wherein said container means is a watertight and airtight material.

17. The method as described in Claim 9 further comprising:

10 providing an access to unwrap the tobacco paper and enveloping means upon opening by a consumer.

18. The method as described in Claim 9 further comprising:

shipping the tobacco paper and enveloping means to a consumer to be filled with tobacco filler.
